OUR VISION

Sustainable homes. Stronger communities.

NSP Solar Capsule Homes bring modern, comfortable, solar-powered living to the places people love most — beaches, hills, lakesides and city rooftops — without the time, waste and cost of conventional construction.

Built in weeks
Factory-made and delivered complete — installed on site in a day.

Powered by the sun
Rooftop solar with battery storage for clean, quiet energy.

Light on the land
Raised on screw piles — no deep foundations, easy to relocate.

FEATURES

Why guests and owners love them

01

Iconic modern design

Rounded capsule lines, floor-to-ceiling glass and premium finishes that guests love to photograph and share.

02

Solar power built in

Up to 4.4 kWp on the roof with lithium battery storage — run lights, fans, fridge and air-conditioning on sunshine.

03

Cyclone-rated strength

Galvanised steel frame engineered for coastal cyclone winds, tied down to screw piles.

04

Cool and quiet inside

75–100 mm insulated walls and roof keep interiors cool, cut AC use and block outside noise.

05

Fast to market

Ordered, built and installed in about 8–12 weeks, with minimal work and disturbance on site.

06

Relocatable asset

Lift and move the home to a new site — your investment travels with you.

07

Low maintenance

Hot-dip galvanised steel, composite skins and aluminium glazing built for humid, salty air.

08

Fully fitted

Kitchenette, bathroom, wiring, lighting and plumbing installed and tested in the factory.

09

Raised and flood-safe

Floor about 0.8 m above ground on adjustable pedestals — higher on request.

10

Local service

Designed and built in Dhaka, with local spare parts, maintenance and support.

NOBOSHAKTI PROKUSHAL

DESIGN AND AESTHETICS

Architecture that sells the view

Signature design elements

- Soft rounded corners and a continuous black frame line
- Full-height sliding glass walls framing the view
- Recessed entrance porch with warm timber cladding
- Wide timber-look deck for outdoor living
- Concealed rooftop solar behind a clean fascia
- Warm LED cove and facade lighting

Finish packages

Coastal White
White composite skin, black frame, warm timber porch.

Forest Green
Sage green skin with timber accents for hill and jungle sites.

Urban Graphite
Dark graphite skin, brushed metal and glass for city rooftops.

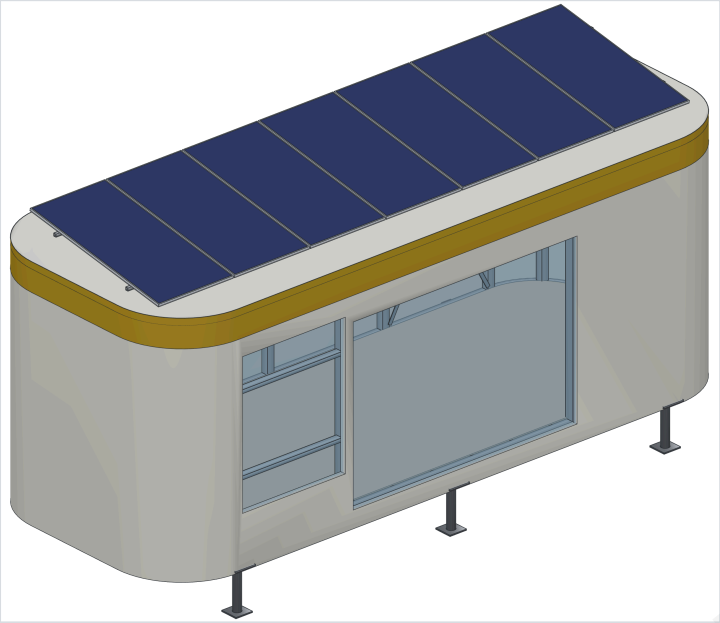

Custom Brand
Your resort colours, logo and signage.

NOBOSHAKTI PROKUSHAL

- Separate bedroom with queen bed
- Bathroom with shower, entry and dressing area
- Smart door lock, AC, warm LED lighting

Ideal for

- Beach and hill resorts
- Boutique eco-lodges
- Premium rental villas
- Rooftop penthouse suites

WHERE THEY FIT

One home, many destinations

Beach resort suite

Hill resort cluster

Beach and coastal resorts

Cox's Bazar, Inani, Kuakata, Saint Martin's mainland sites, Chattogram coast — cyclone-rated and raised above the sand.

Hill and tea-garden retreats

Sylhet, Sreemangal, Bandarban, Rangamati — minimal site cutting, set on adjustable piles over slopes.

Lakes, rivers and haors

Raised floors for flood-prone sites; relocate between seasons.

City rooftops

Dhaka and Chattogram rooftops become penthouse studios, offices or guest suites.

NOBOSHAKTI PROKUSHAL

BUSINESS OPPORTUNITY

Sales scope and business models

Bangladesh's domestic tourism is growing fast while quality, eco-friendly accommodation at destinations remains scarce. Capsule homes let investors open rooms in weeks instead of years — and move them if plans change.

Target markets

- Resort & hotel developers
- Eco-tourism operators
- Landowners at tourist spots
- Real-estate developers (rooftops)
- Corporate guest houses
- NGOs & development projects
- Government tourism & parks
- Construction & mining site camps
- Diaspora investors
- Healthcare & education outposts

Ways to partner with NSP

1

Outright purchase

Buy turnkey units with installation, solar and warranty.

2

Resort cluster package

5–20 units with site planning, walkways, lighting and a shared battery room.

3

Lease or rent-to-own

Lower upfront cost; ownership transfers over the agreed term.

4

Revenue-share partnership

Landowner provides the site; NSP and partners share room revenue.

5

Dealer / franchise

Regional partners sell, install and service NSP homes.

6

Projects and tenders

Staff housing, clinics, classrooms and relief units in bulk.

Why it pays

- Rooms ready in weeks
- Lower energy cost with solar
- Premium room rates
- Relocatable, resellable asset
- Grow cluster by cluster
